

I wanted to make known the importance of the station KLOVE in our family and our community.

We have been very encouraged by their quality of programming and its community outreaches and public services.

If KLOVE were to be displaced by an LPFM broadcaster, we as a community would not have the option of their great station. Please do not make LPFM stations priority over KLOVE station.

KLOVE is in the public's interests. They have proven themselves, through listener funding that the community has a fundamental need for clean radio programming and nothing can take their place.

Please do not take the family-friendly KLOVE off the air in any community. Thank you for considering my request.
